

ZYCOWET RWLF PREMIUM

DESCRIPTION

Unique blend of low molecular weight polymeric and low molecular weight surfactants for very good re-wetting action during desizing, scouring, bleaching & mercerizing of 100% cotton, 100% polyester & their blends.

PRODUCT ATTRIBUTES

- Faster grey wetting property and hence reduces the process time.
- Very low foaming and hence suitable for long liquor exhaust process in high shear machines like jet, soft flow, winch, cabinet as well as high speed jigger.
- Very high detergency and emulsifying action, which removes & suspends oily and greasy impurities as well as size and soil particles.
- It is most suitable for the combined scouring & bleaching of cotton yarns & knits, however it can also be used in normal jigger process for the woven fabrics.
- It can be used in mercerization process also for better penetration and shrinkage parameter with zero foaming property.
- APEO free eco-friendly detergent which is stable to acid, alkali, bleaching agents and workable at high temperature & high pressure.

TECHNICAL DATA

FORM	
Color	Cream White
Appearance	Flow able Paste
Solid content	65 ± 2%
Solubility	Dispersible in water at R.T.
Nature	Mildly Anionic

APPLICATION

0.3% - 1.0% dosage for pretreatment of 100% Cotton, 100% polyester and its blend.

STORAGE & SHELF LIFE

- Keep the drums of ZYCOWET RWLF PREMIUM in a cool shade.
- Do not store in direct sun or at a temperature higher than 40°C.
- As the product is based on strong emulsifier, it is irritating to skin & throat. Any splash in the eyes or on the skin must be washed by plenty of running water. Skin contact & inhaling of the product should be avoided.
- The product on ageing may show slight haziness in diluted solution but it does not affect the performance of the product.
- Minimum shelf life is 12 months.

DISCLAIMER
