

Introduction

Acrylic Thickener R is an eco-friendly new generation polymeric thickener designed for reactive printing on rayon/ cotton fabric. Acrylic Thickener R can be used as a partial substitute to sodium alginate or gum.

Certification

- GOTS
- RSL compliant

Features

- Acrylic copolymer chemistry : softer feel and easy washing of printed portion
- Creamy paste : excellent levelling and uniformity
- Low back side penetration : better colour value
- Fine particle size : suitable for fine mesh and sharp print
- Soluble in 5 min : no need of cooking
- Prevents bleeding of dyes on unprinted portion

Chemical Properties

- Physical state : Translucent yellow dispersion
- Color : Creamish Off White Liquid
- Odour : Paraffinic Smell
- pH range : Approx. 6.5 to 8
- Water solubility : Miscible in Water

Storage & shelf life

- Do not store under direct sunlight or at a temperature exceeding 45°C
- Always keep the lid closed after the material is withdrawn from container
- Shelf life of the product is 6 months (under ideal storage conditions)
