

Zytonic[®] Active

Super-Spreader Adjuvant

Zytonic[®]

**Sustainable farming for nutritious,
safe and affordable food for all**

Adjuvant for Crop Care Chemicals

- Nano-adjuvant Technology
- Enhanced spreading and reduction of crop care chemicals (including herbicides) up to 50%, with extended efficacy
- Reduced phytotoxicity
- Enhanced photosynthesis with higher overall growth
- Improved retention/adhesion & resistance to being washed out during rains (wash-off resistance)

Dose: 3ml/liter

Application Methodology (Shake well before use)

- Mix the recommended dose of Zytonic Active with the needed dose of crop care chemicals.
- Wait for 20 mins (minimum). Add water & spray.
- For the added benefit of mist control, prepare two solutions as follows:
 - 🌿 **Solution 1:** Mix the recommended dose of Zytonic Active with the needed dose of crop care chemicals and wait for 20 mins (minimum).
 - 🌿 **Solution 2:** Take 15-20 liters of water and add 10-20 ml of Zycodrop (Mist/Drift control Agent) and stir vigorously. Wait for 20 mins (minimum).
 - 🌿 Mix the above two solutions together add required water and spray.

Note:

- Easy to mix & compatible with most crop care chemicals (except cationic based substances)
- Stable over a broad pH range and water hardness (Extreme hardness above 1,000 ppm to be avoided)

For All Crops

**Available in
1 Ltr, 250 ml packs &
45 ml sachet**

Store in a cool & dry place, away
from direct sunlight & heat
